

The diagram illustrates a heating system layout. A central boiler is connected to a network of pipes. A vertical section of the pipe is labeled "Koaxiální odtah spalin 80/ 125 odveden nad střešní plášť". The system includes a fan coil unit (KK) and two radiators (KU R950 1" and KU R950 3/4"). Pipe sizes are indicated as 35x1,5 and 22x1. The flow direction is indicated by arrows on the pipes.
